### Housing Options Overview

Housing Options is a private not-for-profit organization that provides affordable, fully furnished housing and support services to individuals recovering from mental illnesses. All residents must have a severe and persistent mental illness – typically schizophrenia, bipolar disorder, or chronic major depression - and be in need of supportive housing. Some of our programs further require that the individual have formerly been homeless and have a low income. In addition to affordable housing, each resident receives supportive services from a team of social workers, case managers, psychiatrists, and a nurse. Housing Options also works to advance understanding of mental illnesses and the importance of supportive housing.

### Applying for Services

If you would like to apply for housing, please call **(847) 866-6144** and ask for intake. Staff will discuss with you whether Housing Options' services meet your needs. The second step is a face-to-face meeting with Housing Options' staff to learn more about your needs and answer your questions.

~~~~~

Since 1988, Housing Options has provided housing and services to over 130 people. The agency is governed by a volunteer board of directors and managed by professional staff. The agency receives funding from a variety of sources, including the City of Evanston, U.S. Department of Housing & Urban Development, Illinois Housing Development Authority, United Way, corporations, foundations, community and faith organizations, and individuals.
